About Seaspan

Seaspan provides many of the world's major shipping lines with creative outsourcing alternatives to vessel ownership by offering long-term leases on large, modern containerships combined with industry leading ship management services. Seaspan's managed fleet consists of 118 containerships representing a total capacity of over 935,000 TEU, including 14 newbuilding containerships on order scheduled for delivery to Seaspan and third parties by the end of 2017. Seaspan's current operating fleet of 89 vessels has an average age of approximately six years and average remaining lease period of approximately five years, on a TEU weighted basis.
