

SEASPAN REPORTS FINANCIAL RESULTS FOR QUARTER AND YEAR ENDED DECEMBER 31, 2007

Company's Strong Growth Leads to Record Revenue and Cash Available for Distribution for the Fourth Quarter and Full Year 2007

HONG KONG, CHINA - Feb. 19, 2008 /CNW/ - Seaspan Corporation (NYSE:SSW) announced today the financial results for the fourth quarter and year ended December 31, 2007.

Fourth Quarter 2007 and Year-to-Date Highlights

- Declared a fourth quarter dividend of \$0.475 per share paid on February 15, 2008 to all shareholders of record as of February 1, 2008, increasing aggregate dividends to \$1.81375 per share for 2007 and cumulative dividends to \$4.19 per share since the Company's initial public offering;

- Generated a record \$31.9 million in cash available for distribution(1) for the quarter and \$114.4 million for the full year;

- Increased normalized net earnings(2), which exclude the non-cash unrealized loss from interest rate swap agreements, to \$17.5 million, or \$0.31 per share, for the quarter and \$62.6 million, or \$1.18 per share, for the full year;

- Including the non-cash unrealized loss of \$37.6 million and \$72.4 million, respectively, for the quarter and year ended, from interest rate swap agreements, which do not represent results from Seaspan's operating earnings, reported a net loss of \$20.0 million, or \$0.35 per share, for the fourth quarter and \$10.4 million, or \$0.20 per share, for the full year;

- Reported record revenue of \$55.0 million and \$199.2 million, respectively, for the quarter and year ended December 31, 2007;

- Took delivery of six vessels during 2007;

- Expanded Seaspan's contracted fleet to 68 vessels through the execution of five transactions to acquire and charter a total of 27, increasing our total contracted revenue to more than \$7.1 billion over the life of the contracts;

- Announced the acceleration of Seaspan's newbuilding delivery schedule for 2008 with the delivery of six 2500 TEU newbuildings this year, an increase from two as originally planned;

- Raised \$296.8 million in net proceeds from follow-on offerings of our common stock in April 2007 and August 2007;

- Amended Seaspan's \$1.0 billion credit facility agreement in May 2007 to a senior secured revolving credit facility and increased the maximum facility amount to \$1.3 billion;

- Completed a \$920.0 million revolving credit facility in August 2007 led by DnB NOR Bank ASA;

- Secured \$400 million in a lease financing structure and \$150.0 million in debt financing at favourable rates; and

- Arranged for approximately \$290.0 million in additional debt financing in January 2008.

(1) Cash available for distribution is a non-GAAP measure that represents net earnings (loss) adjusted for depreciation, non-cash interest expense, amortization of deferred charges, write-off on debt refinancing, non-cash undrawn credit facility fees, non-cash share-based compensation, dry-dock adjustment, and the change in fair value of financial instruments. Please read "Reconciliation of Non-GAAP Financial Measures for the Quarter and Year Ended December 31, 2007 - Description of Non-GAAP Financial Measures - Cash Available for Distribution" on page 12 for a description of Cash Available for Distribution and a reconciliation of net earnings to Cash Available for Distribution.

(2) Normalized net earnings and normalized earnings per share are non-GAAP measures that are adjusted for non-cash items such as the change in fair value of financial instruments and write-off on debt refinancing. Please read "Reconciliation of Non-GAAP Financial Measures for the Quarter and Year Ended December 31, 2007 - Description of Non-GAAP Financial Measures - Normalized Net Earnings and Normalized Earnings per Share" on page 13 for a description of Normalized Net Earnings and a reconciliation of net earnings to normalized net earnings.

Gerry Wang, Chief Executive Officer of Seaspan, stated, "Our strong results for the fourth quarter and full year 2007 is testimony to the considerable success we achieved in executing our growth plan and enhancing our leading industry position for the benefit of our shareholders. Consistent with our vision to become the world's leading container ship leasing company, we increased our cash available for distribution to \$114.4 million in 2007 during a time when we further strengthened Seaspan's position for future growth. Specifically, we took delivery of six container newbuildings last year, including the remaining four vessels from our original IPO fleet. Second, we substantially expanded our contracted fleet to 68 container ships through five transactions totaling 27 newbuildings to be delivered over the next three years. Third, we raised more than \$2.0 billion in debt and equity financings under favorable terms over the past months to support our growth initiatives. And fourth, we increased our quarterly dividend for the second time since our IPO in August 2005. Since going public with our initial contracted fleet, we have grown our modern, world-class fleet by 243% on a TEU basis to more than 401,000 TEU through accretive acquisitions that met our strict return criteria. During this time, we have increased our secured revenue stream to more than \$7.1 billion by locking up all of our vessels on long-term time charters with high credit quality, publicly traded liner operators."

Mr. Wang added, "As we continued to capitalize on management's prudent and opportunistic approach to significantly expand Seaspan's earnings power, we remained focused on maintaining Seaspan's strong financial position. Since our IPO, we have successfully raised approximately \$5 billion in debt and equity financings to fund our robust growth. We believe our ability to raise funds amid challenging market conditions while achieving our low cost of capital is a key differentiator for Seaspan. Currently, we have more than \$1.0 billion in potential available debt capacity, which bodes well for Seaspan to continue to grow its fleet on an accretive basis as we distribute sizeable and growing dividends to our shareholders."

Results for the Quarter and Year Ended December 31, 2007:

Revenue

Revenue increased by 53.9%, or \$19.3 million, to \$55.0 million for the quarter, from \$35.7 million for the comparable quarter last year. The increase was mainly the result of the six vessels delivered during 2007. Expressed in vessel operating days, Seaspan's primary revenue driver, these six vessels contributed \$13.1 million in revenue or 552 of the 2,652 operating days in the quarter.

	Quarter ended December 31,				Yea	r ended	December	31 ,
Increase							Incr	ease
	2007	2006	Days	 0	2007	2006	Days	0,0
Operating days Ownership days	-				9,731 9,829		,	60.7% 60.6%

Operating days increased by 45.6% or 831 days to 2,652 days in the fourth quarter from 1,821 operating days in the comparable quarter last year. There was no significant unscheduled off-hire during the fourth quarter of 2007.

For the year ended December 31, 2007, revenue increased by 68.1%, or \$80.7 million, to \$199.2 million, compared with \$118.5 million for 2006, which was primarily due to the addition to Seaspan's fleet of six vessels and a full year of operations for the ten vessels delivered in 2006. The delivery of these six vessels contributed 1,433 of the 9,731, operating days which increased revenue by \$33.6 million for the year ended December 31, 2007.

We incurred 16 days of off-hire for the quarter, which impacted revenue by \$0.3 million. This was due mainly to the scheduled special survey in the quarter. We incurred 98 days of off-hire for the year, which impacted revenue by \$2.1 million. Accordingly, vessel utilization was 99.4% for the quarter ended December 31, 2007, compared to 100.1% for the same quarter in 2006 and was consistent at 99.0% for the year compared to last year.

Ship Operating Expense

Ship operating expense increased by 55.7%, or \$4.6 million, to \$12.9 million in the quarter, from \$8.3 million in the comparable prior year's quarter. The increase was due to the addition to Seaspan's fleet of six vessels, which are based on fixed daily operating rates for each vessel. Stated in ownership days, our primary driver for ship operating expense, these six deliveries contributed 552 of 2,668 and 1,434 of 9,829 ownership days, respectively, for the quarter and the year.

For the year ended December 31, 2007, ship operating expense increased by 65.7% or \$18.3 million, to \$46.2 million this year as compared to \$27.9 million for the year ended December 31, 2006. Again, this was due to the six deliveries and the ten vessels delivered in 2006.

Depreciation

Depreciation increased by 65.4%, or \$5.4 million, to \$13.7 million in the quarter from \$8.3 million for the comparable prior year's quarter. The increase was due to the six vessels added to Seaspan's fleet and the increase in number of ownership days.

For the year ended December 31, 2007, depreciation increased by 86.6%, or \$23.3 million, to \$50.2 million as compared to \$26.9 million for the same period in 2006. This was mainly due to the increase in number of ownership days for the six vessels delivered in 2007 and a full year of amortization for the ten vessels delivered during 2006.

General and Administrative Expenses

General and administrative expenses decreased by 7.2%, or \$0.1 million, to \$1.8 million in the fourth quarter, from \$1.9 million in the comparable quarter in 2006.

For the year ended December 31, 2007, general and administrative expenses increased by 22.3%, or \$1.1 million, to \$6.0 million as compared to \$4.9 million for 2006. This increase is primarily due to increased costs to support Seaspan's growth initiatives through strategic planning and investor relation activities. The increase is also due to \$0.3 million increase in share based compensation expense that reflected an increase in the share price on a year over year basis.

Interest Expense

Interest expense was \$8.4 million for the fourth quarter and \$34.1 million for the year ended December 31, 2007 as compared with \$6.1 million and \$17.6 million for the comparable quarter in 2006 and the year ended December 31, 2006. The increase was due to the additional funds drawn under Seaspan's operating credit facility to fund the six new operating vessels delivered during 2007 and the full year of operation for the ten vessels delivered in 2006.

Write-off on Debt Refinancing

As a result of the amendment of our \$1.0 billion credit agreement, Seaspan wrote-off \$0.6 million of unamortized financing fees, a non-cash charge, during the year ended December 31, 2007.

Change in Fair Value of Financial Instruments

During the quarter and year ended December 31, 2007, the loss from the change in fair value of financial instruments was \$37.6 million and \$72.4 million, respectively, as compared to losses of \$0.5 million and \$0.9 million, respectively, for the comparable periods in the prior year. The change in fair value of financial instruments is included in other expenses, which is not part of operating earnings and has no cash impact. The financial instruments consist entirely of fixed interest rate swaps that Seaspan enters into to lock in the return on its acquisitions and provide predictable long term cash earnings and distributions to its shareholders.

Cash Available for Distribution (1)

During the quarter and year ended December 31, 2007, Seaspan generated \$31.9 million and \$114.4 million, respectively, of cash available for distribution(1), as compared to \$23.5 million and \$68.0 million for the comparative periods in 2006. This represents an increase of \$8.4 million, or 35.9%, and \$46.4 million, or 68.2%, for the quarter and year ended December 31, 2007 as compared to the same periods in 2006 due to delivery of new vessels.

Dividend Declared:

For the quarter ended December 31, 2007, Seaspan declared a quarterly cash dividend of \$0.475, representing a total cash distribution of \$27.4 million. The cash dividend was paid on February 15, 2008 to all shareholders of record as of February 1, 2008.

Mr. Wang concluded, "Based on our performance in the application of our high-return, low-risk business strategy, we are pleased to once again increase our quarterly payout. Building upon our initial dividend increase of 5% in January 2007, our fourth quarter dividend of \$0.475 per share represents an increase of 6.4% from our previous quarterly payout. Since going public, we have declared cumulative dividends of \$4.19 per share. As we continue to increase our cash available for distribution through the delivery of our 39 newbuildings currently under construction, six of which are scheduled to be delivered in 2008, we remain committed to our goal of further increasing our dividend."

Fleet Utilization:

Seaspan's fleet was utilized 99.4% and 99.0% for the quarter and year ended December 31, 2007 respectively compared to 100.1 % and 99.0% for the comparable periods in the prior year. There was no material unscheduled off-hire during the quarter.

The following tables summarize vessel utilization and the impact of the off-hire time incurred for special surveys and vessel repairs on Seaspan's revenues for the fourth quarter:

	Fourth Quarter		Third Quarter		Second Quarter

About Seaspan

Seaspan owns containerships and charters them pursuant to long-term fixed-rate charters. Seaspan's contracted fleet of 68 container ships consists of 29 container ships in operation and 39 container ships to be delivered over approximately the next 4 years. Seaspan's operating fleet of 29 vessels has an average age of approximately 5 years and an average remaining charter period of approximately 8 years. All of the 39 vessels that Seaspan has contracted to purchase are already committed to long-term time charters averaging approximately 11 years in duration from delivery. Seaspan's customer base consists of seven of the world's largest publicly traded liner companies, including China Shipping Container Lines, A.P. Moller-Maersk, Mitsui O.S.K. Lines, Hapag-Lloyd, COSCO Container Lines, K-Line and CSAV.

Seaspan's common shares are listed on the New York Stock Exchange under the symbol "SSW".

Conference Call and Webcast

Seaspan will host a conference call and webcast for investors and analysts to discuss its results for the fourth quarter and the year ended December 31, 2007 on Tuesday February 19, 2008, at 7:00 a.m. PT / 10:00 a.m. ET. Participants should call 877-419-6600 (US/Canada) or 719-325-4937 (international) and request the Seaspan call. A telephonic replay will be available for anyone unable to participate in the live call. To access the replay, call 888-203-1112 or 719-457-0820 and enter replay passcode 6413332. The recording will be available from February 19, 2008 at 10:00 a.m. PT / 1:00 p.m. ET through to March 4, 2008 at 8:59 p.m. PT / 11:59 p.m. ET. A live broadcast of the

earnings conference call will also be available via the Internet at <u>www.seaspancorp.com</u> in the Investor Relations section under Events and Presentations. The webcast will be archived on the site for one year.

(4) Effective January 1, 2007, Seaspan adopted FASB Staff Position ("FSP") AUG AIR-1, Accounting for Planned Major Maintenance Activities, which provides guidance on the accounting for planned major maintenance activities. Previously, Seaspan accounted for dry-dock activities using the Accrue-in-advance method. Seaspan has adopted the deferral method of accounting for dry-dock activities whereby actual costs incurred are deferred and amortized on a straight line basis over the period until the next scheduled dry-dock activity.

Seaspan has applied FSP AUG AIR-1 retrospectively. As a result, certain comparative figures as of December 31, 2006 and for the quarter and year ended December 31, 2006 have been adjusted. The effect of the adjustment is an increase to Seaspan's net earnings of \$0.4 million and \$1.5 million respectively for the quarter and year ended December 31, 2006. As at December 31, 2006, the effect of the adjustment to Seaspan's balance sheet is an increase in other assets of \$1.9 million and a decrease in retained deficit of \$1.9 million.

SEASPAN CORPORATION

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES

FOR THE QUARTER AND YEAR ENDED DECEMBER 31, 2007

(IN THOUSANDS OF US DOLLARS)

Description of Non-GAAP Financial Measures

A. Cash Available for Distribution(i)

Cash available for distribution represents net earnings (loss) adjusted for depreciation, non-cash interest expense, amortization of deferred charges, write-off on debt refinancing, non-cash undrawn credit facility fees, non-cash share-based compensation, dry-dock adjustment, and the change in fair value of financial instruments. Cash available for distribution is a non-GAAP quantitative standard used to assist in evaluating a company's ability to make quarterly cash dividends. Cash available for distribution is not defined by accounting principles generally accepted in the United States and should not be considered as an alternative to net earnings or any other indicator of Seaspan's performance required by accounting principles generally accepted in the United States. Cash available for distribution is a non-GAAP measure used to assist in evaluating a company's overall operating performance because cash available for distribution eliminates the effects of non-cash items that do not impact our operating performance or our ability to distribute cash to our shareholders.

(i) Seaspan has changed the definition of cash available for distribution for comparative figures to reflect adjustments to the definitions in the current year. The following items are now included as adjustments: undrawn credit facility fees, cash interest paid on operating vessels and cash paid for undrawn credit facility fees.

SEASPAN CORPORATION

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES

FOR THE QUARTER AND YEAR ENDED DECEMBER 31, 2007

(IN THOUSANDS OF US DOLLARS, EXCEPT PER SHARE AMOUNTS AND NUMBER OF SHARES)

Description of Non-GAAP Financial Measures

B. Normalized Net Earnings and Normalized Earnings per share

Normalized net earnings represent net earnings (loss) adjusted for non-cash items such as the change in fair value of financial instruments and write-off on debt refinancing. We believe that the presentation of normalized net earnings is useful because investors and securities analysts frequently adjust net earnings for non-cash changes in fair value of financial instruments and other infrequent non-cash items to evaluate companies in our industry. Normalized net earnings are a non-GAAP measure used to assist in evaluating a company's overall operating performance and liquidity because normalized net earnings eliminates the effects of non-cash items that do not impact our operating performance or our ability to distribute cash to our shareholders.

Normalized net earnings is not defined by accounting principles generally accepted in the United States and should not be considered as an alternative to net earnings or any other indicator of Seaspan's performance required by accounting principles generally accepted in the United States. Normalized earnings per share are calculated using the normalized net earnings and weighted

average number of shares.

		ended December 31, 2007		Quarter ended December 31, 2006 adjusted) (4)		December 31, 2007	ended December

STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This release contains certain forward-looking statements (as such term is defined in Section 21E of the Securities Exchange Act of 1934, as amended) concerning future events and our operations,

performance and financial condition, including, in particular, the likelihood of our success in developing and expanding our business. Statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "projects", "forecasts", "will", "may", "potential", "should", and similar expressions are forward-looking statements. These forward-looking statements reflect management's current views only as of the date of this presentation and are not intended to give any assurance as to future results. As a result, you are cautioned not to rely on any forward-looking statements. Forward-looking statements appear in a number of places in this release. Although these statements are based upon assumptions we believe to be reasonable based upon available information, including operating margins, earnings, cash flow, working capital and capital expenditures, they are subject to risks and uncertainties. These risks and uncertainties include, but are not limited to: future operating or financial results; our expectations relating to dividend payments and forecasts of our ability to make such payments; pending acquisitions, business strategy and expected capital spending; operating expenses, availability of crew, number of off-hire days, drydocking requirements and insurance costs; general market conditions and shipping market trends, including charter rates and factors affecting supply and demand; our financial condition and liquidity, including our ability to obtain additional financing in the future to fund capital expenditures, acquisitions and other general corporate activities; estimated future capital expenditures needed to preserve our capital base; our expectations about the availability of ships to purchase, the time that it may take to construct new ships, or the useful lives of our ships; our continued ability to enter into long-term, fixed-rate time charters with our customers; our ability to leverage to our advantage Seaspan Management Services Limited's relationships and reputation in the containership industry; changes in governmental rules and regulations or actions taken by regulatory authorities; changes in worldwide container demand; changes in trading patterns; competitive factors in the markets in which we operate;

potential inability to implement our growth strategy; potential for early termination of long-term contracts and our potential inability to renew or replace long-term contracts; ability of our customers to make charter payments; potential liability from future litigation; conditions in the public equity markets; and other factors detailed from time to time in our periodic reports. We expressly disclaim any obligation to update or revise any of these forward-looking statements, whether because of future events, new information, a change in our views or expectations, or otherwise. We make no prediction or statement about the performance of our common and subordinated shares.
