#### Operational Highlights for the Quarter Ended June 30, 2006

- During the quarter, Seaspan took delivery of one additional vessel in its initial contracted fleet of 23 vessels, increasing Seaspan's total operating fleet from 15 to 16 vessels;
- On April 6, 2006, Seaspan took delivery of the 4250 TEU Saigon Express, approximately ten weeks ahead of the contractual delivery date. This ship is the fourth of nine vessels chartered to CP USA, a subsidiary of CP Ships Ltd.
- On April 17, 2006, the Company announced the grounding of the New Delhi Express, one of the 4250 TEU containerships on charter to CP Ships USA, in New Jersey. Subsequent to the grounding, the vessel discharged all her containers and eventually moved, under her own power, to a local drydock for permanent repairs on April 19, 2006. The vessel suffered damage to her bottom plating on her starboard side. The cost of repairs and other pollution avoidance measures amounted to approximately \$1.9 million to date, of which \$1.7 million is covered by insurance and \$0.2 million is the insurance deductible. The vessel was placed off-hire by CP Ships for 24.3 days. CP Ships deducted approximately \$0.5 million from hire payments on the vessel for the off-hire period. The Company expects to incur total losses of \$0.7 million including the \$0.5 million loss of charter hire revenue and a \$0.2 million insurance deductible. There were no injuries and no adverse environmental impact sustained, as a result of the incident. The Company is exploring the possibility of pursuing insurance claims to recover all losses incurred, including off-hire.
- During the quarter, Seaspan further expanded its fleet through the exercise of options to build new ships that would increase the total contracted fleet from 29 to 33 vessels, with an option for a further four vessels;
- As part of the order announced on February 28, 2006, Seaspan obtained the option to build an additional eight 2500 TEU Vessels from Jiangsu Yangzijiang Shipbuilding in China in two tranches of four vessels each, for the same price as the initial four vessels.
- On June 29, 2006, Seaspan exercised its option on the first tranche of four option 2500 TEU vessels. The delivered cost is expected to be approximately \$44.7 million per vessel and the vessels are expected to be delivered between May 2009 and August 2009. A 12 year charter agreement with CSCL Asia has been arranged for the first four option 2500 TEU vessels under the same terms as the initial four vessels.

The Company has until September 30, 2006 to exercise the option on the final tranche of the option vessels. Seaspan has made no commitment, financial or otherwise, to proceed with the order for the second tranche of the optional vessels and will only exercise its option with respect to the optional vessels if acceptable long-term charters are arranged.
