In commenting on the awards, Matt McCleery, President of Marine Money said, "In a year of unprecedented transactional value, it is my pleasure to reward creativity, hardwork and value creation. This year saw more intense competition than ever before, with robust capital markets activity that stretched from Hong Kong to Oslo to New York. Winners should feel proud of their achievements and the success they have delivered to their clients."

Nora Huvane, Editor of Marine Money, commented, "Day in and day out we are in touch with the individuals who made these deals possible. It is our honor to congratulate them on their achievements, knowing of course that these transactions represent only a fraction of their contribution to the industry last year. It is even more impressive when one thinks of it in terms of airplane flights, conference calls, days away from home and sleepless nights."

James R Lawrence, Chairman, said, "in this, our 20th year, we've seen the capital markets enable the formation and continued growth and health of the world's leading marine transportation companies. The winners of this year's awards epitomize the talents and

energy of the vital community of financial professionals serving the international shipping industry."

The awards will be presented on June 21, 2006, during Marine Money Week at the Pierre Hotel in New York.

About Marine Money International:
